Currently serializing "My Favourite Teacher" in Monthly Comic GENE!

What Kagerou Project song have you listened to recently?

>> Lost Time Memory. It's very cool. I can't help but become filled with various emotions (´ω´*)

When you think of summer vacation, what memories come to mind?

>> I remember stepping on a sea urchin at the beach, its spines sticking into the sole of my foot... and also, about three of them couldn't be removed.... (We ate the sea urchin I stepped on.)

If you could spend your vacation with one character from Kagerou Project, who would it be and where would you go?

>> Should I go with Konoha? The reason being what I drew in my comic: he seems like he'd have a low body temperature (laughs).

Your goal for this summer!

>> Work for the new volume of my 4koma in GENE, "My Favourite Teacher". (self-promotion)
